NORTH VANCOUVER
DISTRICT

NORTH SHORE
RECYCLING PROGRAM

Outline

- Current Waste Management Contract
- MMBC
- RFQ/RFP
- Solid Waste Recommendations
- Results of Recycling Survey

Existing Contract

- Waste Management contract extended for 1 yr
- Option for 2nd year extension with Council approval

MMBC Program Started May 19

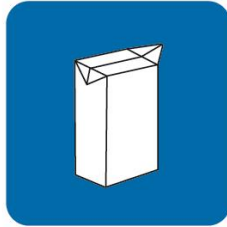

New in the Blue Box

Paper Cups

Gable top Cartons

Aseptic Cartons

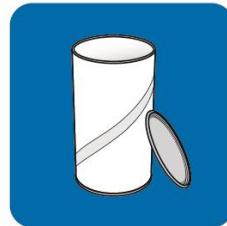

Aerosol Cans

Microwavable Dishes

Frozen Dessert Boxes

Spiral Wound Paper Cans

Plastic Containers

Plastic Foam

Plastic Bags & Overwrap

Glass

Refundables

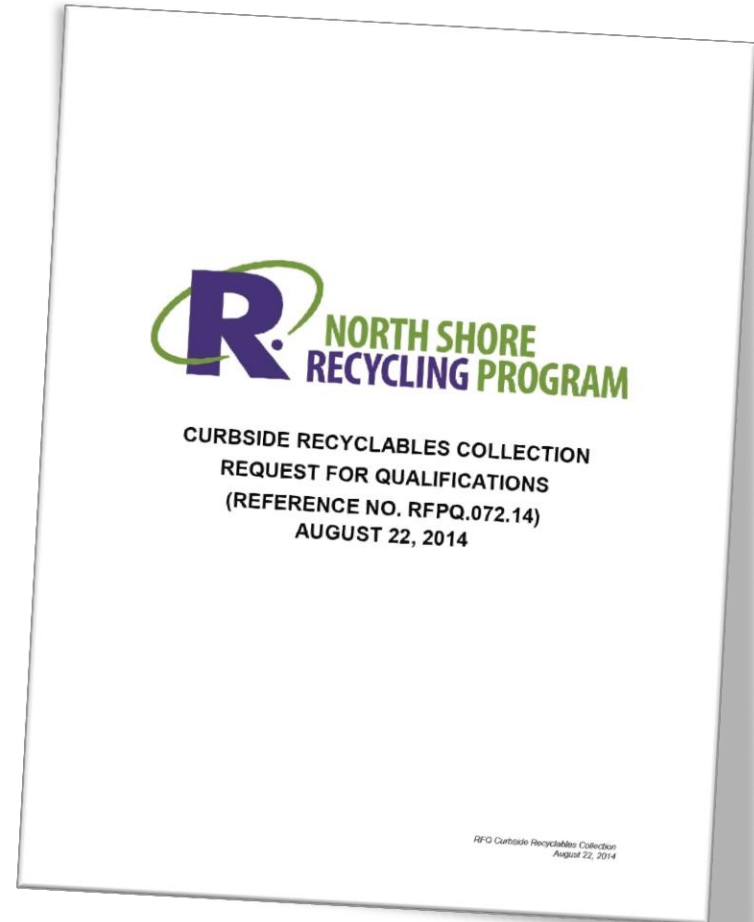

MMBC Considerations

- MMBC makes no commitment to level of service
- Market price dictates level of service
- Coquitlam receiving weekly collection with curbside glass

RFQ/RFP Process

- Qualified contractors will be invited in early Oct. to submit RFP's.
- The RFP closing date is Nov. 5, 2014

Solid Waste Recommendations (June, 2013):

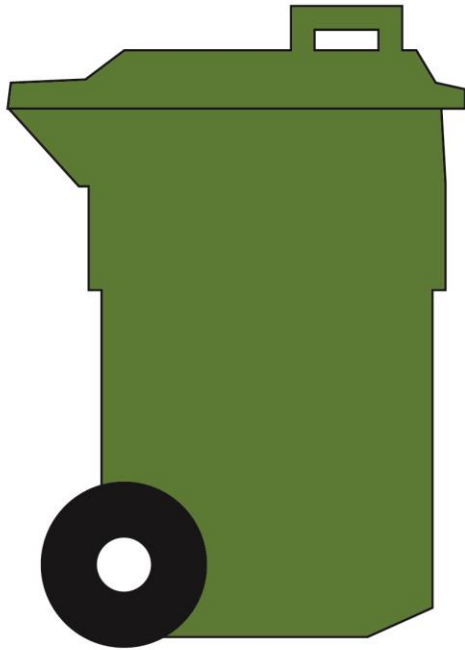

- Provide each SF residence with a dedicated locking wildlife resistant 240 litre or 140 litre cart for weekly collection of organics and food waste;
- Bi-weekly garbage collection using standard locking 240 litre cart with a reduced cost to residents who choose to downsize to the 140 litre cart;

MULTI
MATERIAL
BC

Recommendations cont:

- Allow residents to purchase an additional cart or utilize an existing 360 litre cart for additional yard trimmings.
- Council proposed, at that time, that a final decision be postponed until a decision is made regarding the MMBC PPP Stewardship Plan.

Recycling Survey Results

What we heard from District residents:

- Preference for weekly multi-stream recycling
- Preference for curbside collection of glass compared to drop-off depots
- Preference for garbage/yard trimmings/green can and blue box recycling to be collected on same day
- Residents are willing to pay for curbside collection of glass
- Maintaining municipal control over decision-making and delivery of recycling services was important
