Construction Traffic Management

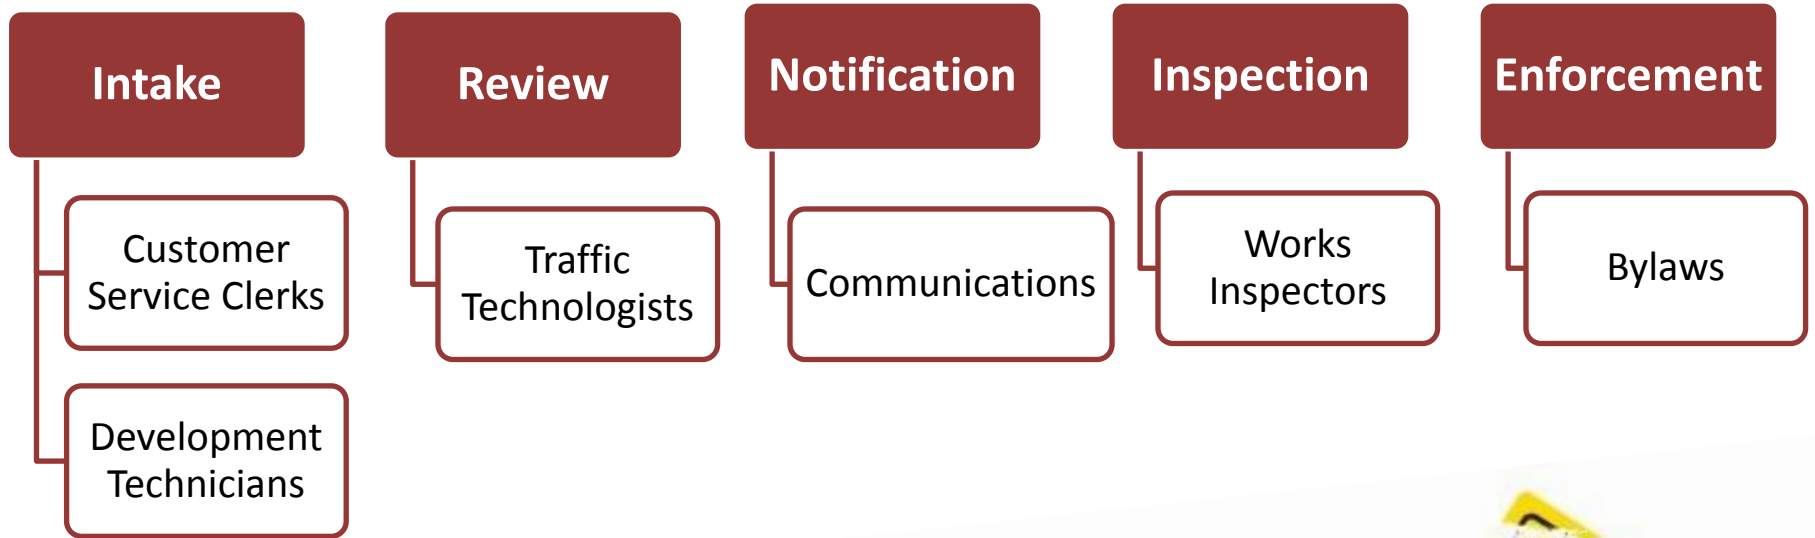

Construction Traffic Management Principles

1. Road Safety
2. Roadway efficiency
3. Keeping routes open
4. Communication
5. Clear detour routes
6. Off-peak hours
7. On-site containment
8. Coordinate across North Shore

Current HUP Tracking System

What's Involved

What we've done so far

- New CTMP requirements posted on Web
- Limited construction activity on major roads

What we've done so far

- Full-time roaming construction inspector
- Traffic cameras
- Weekly road report (Communications)

What we've done so far

- Hired program coordinator
- Hired traffic technologist
- Building capacity among staff

What we've done so far

- Building industry awareness
- Increased fines
- Deposit & fee system

- Project coordination tools

Rethinking the Process

- Strengthening relationships
- Changing staff organization & resources
- Filming & Special Events

Recommendation

- That the report and presentation be received for information

Summary

- Focus on Centres
- Connection between development and capital works
- Developing new tools for managing impacts
- Opportunities for better communication with Council and the community
