OCP Implementation Committee Recommendations for  
**OCP Progress Monitoring**

Committee of the Whole  
Dec 14, 2015

# Initial Feedback from Council

- **Commended OCPIC members for hard work**
- **OCP progress monitoring measures what's happening on the ground - potential value as a decision making tool**
- **Challenges in moving from global approach in OCP to specific metrics**
- **Metrics need to relate to values that the community cares about**
- **Relationship to Quality of Life indicators**
- **Useful if metrics were similar to those used in other communities**
- **Language needs to be accessible, easy to understand**

# Requested Feedback

**What are Council's thoughts on the overall OCP progress monitoring framework and approach?**

- 1. Does the report land on the right indicators and targets that are relevant to the community? Have any been missed?**
- 2. Does the report provide the right format and level of information to tell the story on OCP progress monitoring?**
- 3. What ideas does Council have to inform the final product? (e.g. online tool, visual appeal etc.)?**
- 5. How does Council envision the roll-out and use of this product?**
