The District of North Vancouver REPORT TO COUNCIL

November 27, 2020
File: 11.5225.01/002.000
Tracking Number: RCA -

AUTHOR: Stephen Bridger, Section Manager Engineering, Planning and Design

SUBJECT: **UBCM Community Emergency Preparedness Fund - Structural Flood Mitigation 2020 Application for Debris Hazard Management on Panorama Drive at Mathews Brook and Gavles Creek**

RECOMMENDATION:

THAT the application for grant funding through the *UBCM Community Emergency Preparedness Fund - Structural Flood Mitigation 2020 Application for Debris Hazard Management on Panorama Drive at Mathews Brook and Gavles Creek* is approved.

REASON FOR REPORT:

A resolution of Council is required to support the grant application to the *UBCM Community Emergency Preparedness Fund - Structural Flood Mitigation* program. Staff are planning to initiate further design and construction work for creek channel improvements and debris hazard mitigation infrastructure on Gavles Creek and Mathews Brook at Panorama Drive as identified in the 2017 Debris Geohazard Risk Mitigation Program.

In the past six years, there have been several significant storm events triggering damage to public infrastructure and private property in this area as well as other developed areas near the urban wildland interface across the District. The debris flood risk is further compounded by the effects of climate change as the severity and frequency of winter rainfall events is increasing.

FINANCIAL IMPACTS

The proposed total budget for the project is \$1,334,200 with a maximum grant contribution of \$750,000. This project is funded in the District's 5 Year Financial Plan. Staff are very familiar with the UBCM grant management procedures and shall meet the necessary reporting requirements.

SUBJECT: UBCM Community Emergency Preparedness Fund - Structural Flood Mitigation 2020 Application for Debris Hazard Management on Panorama Drive at Mathews Brook and Gavles Creek

November 27, 2020
