

Community Risk Assessment: Standards of Cover 2020-2025

Presented by:

Fire Chief Brian Hutchinson

Assistant Fire Chief Haida Fortier

Why create an internal CRA/SOC process?

- Emphasize DNVFRS dedication to excellence.
- Establish a culture of continuous improvement.
- Receive independent validation of all service levels.
- Provide tangible data for elected officials and stakeholders.

Allows DNVFRS to build on proactive processes already in place.

Community Risk Assessment: Standards of Cover 2020-2025

Thank You!

North Vancouver District Public Library Storylab Video Production Team

- Maryann Kempthorne, Manager – NVDPL Innovation & Learning
- Nic Peerson (they, them, theirs) – NVDPL Digital Services Assistant
- Mike Jessop – NVDPL Digital Services Assistant
- Captain Conrad Breakey – DNVFRS Public Safety Coordinator
- Justin Beddall – DNV Communications Coordinator

In Closing...

The CRA/SOC is:

- A thorough examination of potential risks,
- Current capabilities of the Fire Department,
- A specific set of benchmarks we can use to measure success.

CRA/SOC is an internal driver for continuous improvement.
